To Whom It May Concern,

RE: Upper Bucks County Technical School Exercise Science and Sports Technology Program

The Bucks County Workforce & Economic Development Department (WED) focuses its resources on areas considered high priority occupations. The agency supports the Upper Bucks County Technical School (UBCTS) in educating and training its emerging workforce.

The Upper Bucks County Technical School Exercise Science and Sports Technology program will prepare students for careers in sports medicine, health care, and kinesiology, of which there is a need. This program will help students interested in pursuing careers in these fields and assist in determining which educational direction they wish to pursue after high school.

This emerging program meets the needs of our employers and meets the business and industry community needs in Bucks County and neighboring counties.

With Bucks County being a county with many small businesses, the workforce needs of the employers is vital to their success and longevity. The Workforce & Economic Development Department is dedicated in providing qualified and talented candidates into the workforce.

Sincerely,

Billie Barnes

Executive Director
