Exercise Science & Sports Technology Presentation
January 27, 2022

We appreciate your interest in our Exercise Science & Sports Technology program. I hope the following documents will provide you with an overview of our program.

- **About UBCTS** - UBCTS is a public high school serving the students in three Upper Bucks County School Districts. Those districts include Palisades, Pennridge, and Quakertown. The mission of UBCTS is to educate students for successful careers and to inspire lifelong learning in a challenging and changing global economy. Students benefit from specialized career programs that give them a competitive edge in college and careers. Approximately 800 students in grades 9-12 are enrolled in twenty-one Pennsylvania Department of Education-approved technical programs. Students participate one-half day at the career and technical school and one-half day at their sending district, where they receive the balance of their academic courses.
