September 20, 2020

Good evening,

This past Friday, September 18, 2020, Upper Bucks County Technical School was notified of a positive case of coronavirus (COVID-19).

School leadership, in conjunction with local public health officials, has determined that there is no need to close our school at this time. The classrooms and spaces used by the individuals were cleaned and disinfected according to CDC guidelines.

Staff members and students who may have come into close contact (any individual within 6 feet of an infected individual for at least 15 minutes) with the individual has been directly contacted by the school health department and will be receiving notification from BCDH with instructions to self-quarantine.

In addition to this a phone message, an email and letter has been sent through our Parent portal system. The letter will also be posted on our webpage.

All students and families are reminded that they should be regularly checking for symptoms of COVID-19. The most common signs and symptoms include: fever greater than 100.4 degrees, cough, shortness of breath, headaches, body aches, fatigue, loss/alterd sense of taste or smell, diarrhea, and runny nose/congestion. Anyone experiencing any of these should stay home from school and consider contacting your medical provider. It is vital that we all do what we can to protect the safety of the entire Upper Bucks County Technical School Community.

Thank you.

Jeff Sweda

Executive Director
