## Ever consider a career in **Manufacturing** or **Engineering**?

The Upper Bucks County Technical School has a few openings for students interested in studying the exciting field of Machining Technologies. Machinists and engineers use high-tech tools and equipment to shape raw materials into precision components used in the production of all mechanical devices. Upon graduation, all students will have many opportunities. You could choose to enter the field as a machinist or apprenticeship earning a nice salary immediately, pursue a college degree, or a combination of them both. You will have the perfect foundation to pursue further education towards a degree in manufacturing or mechanical engineering.

## **Why Manufacturing?**

- ▶ Great job security and employment mobility
  - ▶ Excellent Job Placement
- ▶ Great Pay \$\$\$\$\$\$ and Benefits
- ▶ Great opportunities for Advancement
  - ▶ Employment Upon Graduation- Machinist/CNC Machinist
  - ▶ College Training- Manufacturing/ Mechanical Engineer
- ▶ Great Working Conditions
  - ▶ Climate Controlled
- ▶ Develop a sense of pride in work
  - ▶ Create complex projects with technology
- ▶ Competency Based Education
  - ▶ Learn and progress at your own pace
- ▶ Learn Mechanical Skills
  - ▶ Work with your hands and mind
- ▶ Earn National Industry Certifications
  - ▶ NIMS (National Institute of Metalworking Skills)
  - ▶ OSHA Safety
